THE STRUGGLE ENDED.

Mother McKinley Has Gone to Hor Long Home.

Died Surrounded by Her Children-She Goes to Her Grave Honored and Mourned by All the People of the United States—Sketch of Herbilds.

CANTON, O., Dec. 13.-Mrs. McKluley passed from life at a few minutes past two o'clock yesterdey morning, with all her children and other hamedlate relatives at her bedside. She did not suffer any ln her last hours but gradually passed from the deep, palsied sleep in which she has rested almost constantly for the past ten days late the sleep of ileath.

The end was most beautiful in its quiet and pescefulness. She seemed to sleep so soundly that It was difficult to tall whether she had yet breathed her last. This condition lasted for

THE LATE NANCY ALLISON M'KINLEY half an hour. There was so struggle. were by her side. There were ao rec- a erew. ogultiona, however. Her last conscionsness was hours before her final taking away.

Sketch of the Life of Mother McKinley. Mrs. McKinley was distinctively a home-lov-ing woman, and the two-story frame cottage on West Tuscarawas street in this city, where she died and where she had lived for many years, was dearer to her than any other spot on earth. There she spent her declining days with her duschter liden and her grandchildens drace and James McKinley, receiving occeational visits from her other children, seldom

in the City.

COME AND SEE US.

casional visits from her other shiddren, seldom going out except to church, where she could be found every Sunday morning unless prevented by filmess.

While showing deep affection for her other children she had followed the career of Willem with prile and solicitude. With found, motherly admiration she watched him rise from the position of prosecuting attorney of hie own county, by successive stages to congressman, governor and finally to the presidency.

Nancy Allison McKiniey came of a family which was transplented from England to the bills of Virgiuia. The Allison family subsequently removed to Green county, Pa., where Abner Allison, Nancy's father, was born and where he married Ann Campbell, of Scotch-German descent. Early in the present century, Mr. and Alra. Allison came from I'onnaylvania to Columbia county, this atate, traveling by pack horses.

In 1809 mean, the present city of Lisbon.

In 1900, near the present city of Lisbon In 1909, near the present city of Lisbon, Nancy Allison was born. Her girlinoid was passed on the farm, and in 1827 she married William McKinley, a young iron manufacturer. The couple lived first at Fairfield and afterward at Niles and Boland before moving to Canton. Niac children were born to them. They were David Allison, deceased; Anna, deceased; Jemes, diceased; Mary, deceased; Helan Minerve, now living at Canton; Sarah Elizabeth, now the wife of Mr. A. J. Dunenn, of Cleveland; William, the president; Abigall Cella, deceased, and Abner, whose home is in New York. William McKinley, Sr, died in November.

1892, at the age of 85 years. BIG DIAMOND ROBBERY.

The Robber Falled to Get Away With His

Hooly. BALTIMORE, Md., Dec. 11.-The residence of Isaao E. Emerson, president of the Emerson Drug Co. and commander of the Maryland navnl reserves, was robbed Thursday night, and dlamonds valued at nearly \$10,000 were atolen. After a desperate etruggle the theif was captured as he was leaving the houss.

The prisoner was searched and the diamonds found in his pockets. He says his name is John Davis, 29 years of age.

A LONE MASKED ROBBER. He Played a Hold Came and Got Away \$2.000 Ahead

REDDING, Cal., Dec. 11.-McCormlek, Seeltzer & Co.'s branch etore at Keswick was entered by a masked robber. The occupants of the store were forced to the rear of the building at the muzzle of a pistol. The sale was rifled of about \$2,000 and, alter locking the doors behind him, the robber took the key and disappeared into the night.

Keswick is the emelting city of Shesta county where 1,300 men work. THE HAYTIAN MINISTRY RESIGN

President Simon Sam Maker a Tonr of In

PORT-AU-PRINCE, Dec. 18.-The en tire ministry has resigned. As yet the composition of its successor has no been definitely settled, but several well-known names are mentloned that will command the confidence of Haytlans and of foreigners alike. Yesterday morning, after attending mass at Notre Dume, President Simon Sam made a circuit of the city on horseback, escorted by his etaff officers, but with

out special military display.

A Small Cyclone. NEW OBLEANS, Dec. 18 .- A emall cyclone visitud Pointe a la liache, 45 ulies below New Orleans. Seveu houses were cupsized and a lugger was wrecked

lished Saturday by the Intransigent which purported to be "the real story of the Dreyfus affair.". The oldest newspaper in the world is the Kin Pan, of Pekin. For nearly a thousand years it has been published regularly, first as a monthly, up to the year 1361, when it became a weekly, and for

the last ninety years as a daily. Capt. Sandusky, the veteran Central City Bonifice, is having his

Engine and Cars Derailed by Rock Faller

Upon the Track. POUGHKEEPSIE, N. Y., Dec. 18 .- A serious freight wreck occurred on the New York Central railroad, five miles north of this city, at 4:30 o'clock yesterday morning. Several hundred pounds of rock had fallen upon the north-bound track from the wall of a cut. A small section of state rock, weighing several hundred pounds, fell from the Inland side of a rock cut onto

the north-bound track. A north-bound extra freight train of 40 loeded cars, running, 25 miles an hour, struck the obstruction, and the engiae and 16 cers were derailed. The locomotive kept on its course and ran along the ties for a distance of 300 leet before it stopped. The sudden check-ing of the momentum of the locomotive and forward cars, with the pres sure from behind of the part of the train that remained on the treek, eansed the derailed cers to come together in the cut from side to side in a zigzeg position. Both tracks and the roadhed were torn up for a distance of 250 feet.

The wrecked cars were loaded with all kinds of general merchandise: A flugman ran back and stopped the Troy express just in time.

Hold Up and Search the Occupants, Securing Their Valnables and the Key to a Safe and Post Office, Both or Which Were Looted.

FADOO, N. D., Dec. 14. - One of the

boldest robberies in the history of the Best after dinner pilis. Red River valley occurred at Argusville last night. About nine o'clock two masked usen entered the store of F. D. I'uvue and commended Mr. Pavae and C. II. Dill, a traveling man of Fargo, to hold up their hands. Payne took the matter as a joke et first and loughed when Dill raised his hands above his hend, but the onlinous click of revolvers and the oaths of the robbers soon dispelled nil doubt. Both men were searched and a gold watch aud \$40 were taken Irom Dill. Peyne was forced to give up the key to his cash drawer and that to the post office, both of which were rified. Here the men

got another watch and \$1,000. I'ayne's store is the third door from the railroad. One door south of his is the general store of M. R. Clancy. The next move of the men was to march the two victims into the street and to Ciancey's store. At the appearance of of the mes Clancuy, too, thought that the whole thing was a joke. In the store, beside the proprletor, was M. H. Hudell, a school teacher.

The four men weru placed in line. A watch and \$60 were taken from Ciancey and \$15 from the school teacher. The four men were then faced to the wall and with a threat of lustant The two robbers then disappeared in the darkness.

The robbers were in the first store | Keslucky 15 minutes and about the same length of time in Clancey's. A posse is in pur-

It was the evident intention of the men to go through the town, startlag at the depot and golsg down the street, but as the Great Northern railroad agent was absent at the time that much of the plan miscarried.

A Popular Proprietary Medicine Sold at Retail for Five Cents a Package —the first experimental step in a direction that MILLION.. may lead to a revolution in the trade.

A New York company of manufacturing chemists, the Ripans Chemical Company, placed upon the market about five years ago a medicinal tablet or "tabule" composed of compressed powdered preparations of certain medicinal drugs which had been ascertained to be of more general use among medical men than any other, for the cure or alleviation of such file common to man as have their origin in an impaired digestion or weakened capacity for assimilating food, absorbing nourishment and chuinating waste. The catalogue of file included under this head is said to include pretty ueasity every disease for which the physician is called upon to prescribe. In preparing their stondard remedy for the acceptance of the American people the company laid down the principle that everything entering into the packet should be of the highest grade, and so prepared and prolected as to retain its qualities iniste and nuimpaired through any extruded lapse of time in any climate. Only the choicest drugs should be used, their preparation should be in accordance with the latest perfected methods of modern science, the tabules packed in glass, protected by absorbent cotton, and securely corked. Even the corks used have been of a grade so high in its requirements that no manufacturer of these every-day stoppers could supply more than a small proportion from his output that would meet the exacting specifications. The glass vials were in turn packed in brace of a quality not surpassed in beauty and perfection of workmanship by these used by the most fastidious dealers in jewels and ornaments of gold. Having set their light standard, and never consenting to vary from it, the proprietors resorted to the accepted smodern nushods of making their commedity known, and seven hundred thousand dollars invested within five papers and surprising qualities of Ripans Tahules.

Being thoughtful and painstaking observers of the changed conditions that sweep over the commercial work, and careful to note every circumstance for superiors of everything resent being ca

or several weeks or months are found to be practically as fresh and as efficacious as rec.

Acting upon these suggestions, and noting particularly the unimpaired prosperity of reat newspapers now sold for a cent instead of the old rate of five times that amount, and the general tendency in all directions toward low rates and increased sales, the ompany have entered upon the experiment of putting up Ripans Tabules in pasteboard artons, which they will offer to the trade upon terms which will permit of a package sing sold by the drugist or storekeeper not aprice lower than ever before adopted for proprietary medicine—FIVE CENTS—ten tabules, or doses, for one-haff a cent cach.

The company will not discontinue the manufacture and sale in the form with which is people have learned to know and value the Ripans Tabules, but will offer the cheaper of the company will not discontinue the manufacture and sale in the form with which inderstood that the quality of the medicine is identical in both sorts, the only difference leng in the form and comparative cost of packing or putting up. The flow-cent packages are not yet to be had of all dealers, although it is probable that almost any drugses are not yet to be had of all dealers, although it is probable that almost any drugser of the containing ten tabules, will be sent, postage paid, to any address for five cents in amps, forwarded to the Ripans Chemical Co., No. 10 Spruce 2t., New York. Until the solds are thoroughly introduced to the trade, agents and peediers will be supplied at a rice which will allow them a fair margin of trout, viz. 1 dosen cartons for 40 cents.

ESSON XII. FOURTH QUARTER. IN-TERNATIONAL SERIES, DEC. 19.

Memory Verses, 8-10 — Golden Text, I

John I, 9 -- Commentary by the Rev. D.

5. "This then is the message which wo have heard of Him and declare unto you, that God is light and in lilm is no darkpess at all." John wrote his gospel that wo might believe that Jesus is the Christ, the Son of God, and believing have life in Him (John xx, 31). Hie wrote this epistic that we who believe might know that we have eternal life, be full of joy and not sin (chapters v, t3; 1, 4; 11, t). Knowing Jesus personally, having heard and seen and looked upon and handled Ilim, he declares Him as the Word of Life, that wo, too, may have fellowship with him, and with the Father, and with Jesus Christ.

6. "If we say that we have fellowship with Illin and walk in darkness, we lie and do not the truth." From the begin-ning of the Bible story light is suggestive of God and darkness of sin and satan. The waste and void and dark condition of thlugs in Gen. 1, 2, seems to have been the result of a judgment which must have come upon the earth, for, necording to Isa. xiv, t8, R. V., compared with Gen. t, 2, God did not crento the earth waste nml vold. Isa. xxxiv, t1, and Jer. lv, 23, are the only other two places where we have the same combination of Hobrew words as In Gen. 1, 2, and in each case a judgment

is manifest.
7. "But if we walk in the light, as He ts in the light, we have fellowship one with another, and the blood of Jesus Christ His Son cleanseth us from all sin." Light shines, discovers, beautifies, purifies, for light is of God. Not only did Jesus Christ say, "I am the light of the world," but Hondso said to Ills own, "Ye are the light of the world; let your light so shine be-fore men that they may see your good works and glorify your Father which is in heaven" (Math. v, 14, 16). If we welk with God, we cannot but walk in the light, but walking with God huplies at least two things—vlz, hemility, such as is not antural to us, and perfect agreement with God about everything (Mic. vl, 8, margin; Amos 111, 8).

8. "If we say that we have no sin, we deceive ourselves, and the truth is not la us." There are those who conclude from the previous verse that nli sin, root and branch, is removed from their being, but such a thought is contrary to the teaching of Scripture, and surely the Holy Spirit in plucing the statement of this verse just where He has sought to correct any such false teaching. While we are in these mor-tal bodies the flesh or old nature remains in us and justeth against the Spirit, but the Spirit is also in us as children of God by faith in Christ Jesus and keeps us from the things which otherwise we might do

(Gni. v, 17, R. V.).
9. '' If we confess our sins, He is faithful and just to forgive us our sins and to elennse us from all unrighteonsness." While in the mortal body aiway delivered to death for Jesus' sake—1. e.; the death of seif or the tlesh or sinfui unture (II Cor. lv, II), if we sin against God, as all are liable to do, hero is our comfort, that instant confession of sin brings Instant for-giveness through the blood of Christ, and

10. "If we sny that we have not sinned we make Ilim a liar, and this word is not In us." John is writing to those who are children of God by faith in Christ Jesus, for only such as have received Christ are children of God (John 1, 12). Others nre children of thodevil even though they may be very religious, according to our Lord in

2-t. "My litte children, these things marching orders day by day are to sin not. live to His glory by our advocate or paraclete whin Illm, Jesus Christ the rightcous, and by our paraclete in us, the Holy Spirit; yet so weak are we and often so unwatchful that actwithstanding the ahundant provision we grieve both Father, Son

"And llo is the propitiation for our sias, and not for ours only, but also for the sins of the whole world." Propitiation here signifies atonement, reconciliation, sacrifice, and that provided by God through Christ is sufficient for nii the world. There is no forgiveness of sins apart from Him and Ilis great work, but in ami through Him there is sufficient for all who will accept Illin, even for every soul on earth if they will come. How shall they come tf

8. "And heroby we do know that we know Him if we keep His command-ments." Not faultiess conformity, for there is none such on earth, nor ever was, except in Christ, but a hearty acceptance of and willing subjection to His whole revealed will. He Himself suid, "He that hath My commandments and keepeth them, he it is that loveli Me."

4. "He that saith, I know Him, and keepeth not His commandments, is a liar, and the truth is not in him." Sockillful is s. tan in perverting the truth and in blindag people that he leads some to say, "Oh, t does not matter very much how I live, believe in Jesus Christ, and therefore I m saved. If my life is not quite correct, I will only loso my works." Now such are evidently decolving themselves, and are liars. Bolleving about Jesus Christ saves no one. He must be received into the heart, and that is the Scriptural sense of believing (John 1, 12).

5. "But whose keepeth liis word, la him verily is the love of God perfected. Hereby know we that we are in Him." When we receive letters from those whom we love, we trensure them and read them many times, and live on them. A mere casual reading of a letter, and that but oace, would not indicate much love for the writer. How, then, can those be said to love God who care not for His word? 6. "He that saith he abideth in Him, onght hinself also so to walk, even as He walked." He could say, "The Father hath sent Me, and I live by the Father." But Ho also said, "As the Father hath sent Mo, so send I yon," and "He that eateth Me, even he shall live by Me" (Joha vl. 57; xx, 21). Now He was here wholly for God, speaking the words of God, doing the will of God, always pleasing God. There is no other way for us, and we must be willing to renounce self, deny self, die daily unto self that His life may be manifest taus, or else prove ourselves nuwerthy

CHRISTIAN ENDEAVOR.

Tople For the Week Beginning Dec. 18. Comment by Rev. S. H. Doyle. Topic.—One thing I have learned from Paul's life or writings. Acts 1x, 1-22. (A emory meeting suggested.)

Paui, the greatest apostie of Christinnity, was born in Tarsus, a city of Cilicin, and a gentile eity. The name write I mute you that ye sin not, and if given to him by his parents was Saui, any man sin we have an advocate with the Father, Jesus Christ the righteous." Our he became a defendant and advocate of We have been redeemed by the blood of Christianity. Punl's father was a Phar-Christ, that the righteousness of the law isee of the tribe of Benjamin, and in might be fulfilled in us who walk not after the tesh, but after the Spirit (Rom, vili, 4). ship, for Pani says in Acts xxii, 28, "I Surely God has made full provision for us | was born free." At Tarsus Paul learned to live this life whileh lie would have us the Greek language, and also the trude of a tentmaker, ns every Jewish boy was compelled to learn a trade. Though born in Tarsus, Paul was brought up in Jernsalem, where he was educated at the feet of Gamaiiei.

Paul was at first a violent opposer of Christianity, but, being miraculously converted, he became one of the most zeaious and enthusiastic supporters of Christ that the world has ever seen. In the providence of God he was called to be the greatest leader in the missionary movement that carried Christianity through the Roman empire. He made three great missionary journeys, organizing Christian churches in the most important cities of Asia and Europe. Arrested by his enemies upon his iast return to Jerusaiem, for fear of his life he was taken unto Clesarea and tried before Feiix, the Roman ruler. He delayed decision in the matter and left the province without doing so. Festus suceeeded Felix. He suggested that Pani go to Jerusaiem to be tried, but Paul used itis right as a Roman citizen to appeal to Casar. His appeal was granted. He had a hearing before Agrippa, Bernice and Festus and would have been set at liberty but for his appeal. He was taken to Romo, suffering shipwreck on the way. Paul was imprisoned for two years, and then set at liberty by Nero. He visited Greece, Asia Minor and Spain. He was again apprehended and imprisoned at Romo and was later beheaded at Rome by Nero in his great persecutions of the Christians. From Paul's life many lessons may be learned.

Paul was not only a great worker, but also a great writer. He was a man of education, of deep thought, of logical mind and possessed a wonderful power of expressing great truths in forcible language. His epistles stand today as the best expression of the truths and doctrines of Christianity. This Pauline service could in no way be better conserved than by each Endeavorer committing to memory what he thinks to be the choicest selection from ail the writings of Paul. Next to Christ Himself, Paul the apostlo stands as the best model the world has seen of Chris-

ENCYCLOPEDIA, ATLAS & DICTIONARY

necessities in every home, office, or school in the land. But besides these, it includes Biographical Dictionary, Gazetteer of the United States, Dictionary of Technical Terms, and other indispensable requisites of a working reference library.

The Encyclopedia is in itself worth twice the price of the whole library. It is par excellence the book of reference for every man, woman or atudent to have at his or her elbow at all times for quick, ready reference. It is the latest, best, most concise, yet thorough and accurate encyclopedia extant, and the only one in existence that is brought down to September, 1897. It is edited by John Clark Ridpath, LL.D. It includes comprehensive and reliable articles on The Cuban Rebellion, Klondike Gold Fleids, Moving Photography, and other topics of live interest to-day. In all, nestly 100,000 topics are treated, and these are magnificently illustrated with thousands of engravings, colored maps and charts.

The Atlas comprises a handsome series of maps and charts, brought down to date; 100 coiored and 200 in monotint, which, for convenience sake, are scattered through the volumes of the Encyclopedia, according to their alphabetical arrangement. Also hundreds of diagrams, sketches, battle

pians, portraits, etc.

The Dictionary is the work of the ripest linguists of modern times. It is an unabridged, etymological, pronouncing, literary, scientific and technical Dictionary of the English language, and is an acknowledged authority both in England and America. The regular price of this great king of books is \$24.00. It comprises nearly 3,000 closely printed columns of words and definitions.

For advertising purposes merely, and to introduce this grand work to the public, we have decided to place a few sets in each community at about one-third of the subscription price, and deliver the set complete INTRODUCTORY

Superintendent Dickson is now reported much improved in health, and his friends on the Henderson division are pleased with thn good news and hope to soon see him rostored to his former good hnalth.

Conductor Ed Beal is happy indeed since the arrival at his house of a fine boy. The wife of Fireman James L. Long is visiting relatives and friends hern.

Ask Walter Wright and Tom Spencer thn full particulars about that duck and hog case, which is now thn talk of thn town. Is it a fact that Tom don't know a duck from an owl?

The first serious accident that has occurred for several years in the Earlington yard occurred last Thursday night. Brakeman McKenna was assisting in switching in the yard, and when in the act of uncoupling cars, onn of his feet was canght between a switch iron and the head block, and in the attempt to extricate himself, if possible, it is supposed that he thrnw himself ont on tho rail, and falling bn was run over and his life extingnished in an instant by the weight of the heavy car wheels passing over him. It was onn of those accidents, so far as we can learn, whern no onn was father who is an engineer at work on some road leaving Louisville.

"During the late fever season the Louis ville and Nashville Railroad Company earned the thanks of its employees in Mobile by its fair trestment to them and their families, and the men havn volunteered means of protecting somn 2,000 of the population from want. This act has been Here are two hot locals from the recognized at its true value by the em-"last number" of the Hanson Ex- ployes, as the following letter sent to the

Mobile, Ala., Dec. 1, 1897 - Mr. H. H. Minto, Master Mechanic-Dear Sir:-We, ing four months of its history, and has increased its earnings more than twenty-five per cent. in that length of time. Assistant Secrelary Howell, who has been many years connected with the cusloms service of the Government, has caused a very careful estimate to

express through you to them our heartfelt appreciation of their kindness to us. First, in having furnished with transportation for themselves and families, all who desired to leave, with permission to return at will and resume work. Secondly, for having furnished regular employment to each and every one that remained here and desired work, there not being a single day during this time that the shops did not run the usual hours, while other shops similarly situated were closed in part or altogether. In this, we as employes realize that it was not for the best interest of the company at all times; yet there was no cut in time or force. The good resulting no one can estimate. You will kindly deliver to the proper authorities this manifestation of onrapreclation of their good will and gen-

DOWN IN THE MINES.

The St. Beruard Coal Company will soon put in another dynamo to use in supplying incandescent lights. Engineer Howard White will have charge of the The coal produced at these mines is said

their lungs, an investigation lately made in Courts holdover, with two charges against England shows that the death rale is less him, while the booty which he had at the than that of railroad men; in fact, the rate time of his arrest is held by the Second is so low that there is no foundation in the district officials as evidence.

to be among the best in Kentucky for coking basiness.

Streator, Ill., Dec. 10.-The striking coal miners of Northern Illinois have at last won a decided victory. The main point for which thny had been contending since the 1st of last May, thn adoption of thn Bernard gnns turned loose in the debating gross weight system of mining, has been been conceded by the Star Coal Company and the Chicago, Wilmington and Vermillion Coal Company, and the men will retnrn to work next week. The men asked 48c per ton, but the operators throughout coat's reply; "a lump higger than my pay that price. They have persistently reand looked at the witness.
"How old is Schmidt?" the district could not see their way clear to bead at any price, and the men have refused all offers over screens. Todsy, however, an agreement was finally reached, the operat-Jersey, and lain reports have shown the ors conceding the gross weight system, and thn men compromising at 44c per ton. This will affect about 15,000 miners in Northern Illinois. The men will work until the first of January next over seveneighths inch screens at 771/2 per ton, giving thn operators time to put in scales necns sary for the gross weight system, The miners at a meeting this afternoon ratified the agreeement as made by Secretary Ryan Western Kentucky, they are crowded with and the State officers and voted to begin
